proof stress [mpa]	EN 485-2	120	120	120	120	120	120	120	120
elongation [%]	EN 485-2	3	3	3	3	3	3	3	2

Any further finishing, alloy, temper and dimensions available on request

adhesive tape		different protective film available, including tape suitable for laser cut
oxide thickness		up to 25 micron measured following Eddy Current method, ISO 2360
surface uniformity		EN ISO 7599:2010 "General specifications for anodic oxidation coatings on aluminium"
corrosion resistance		excellent - neutral salt spray test according to ISO 9227
sealing quality		weight loss test following EN ISO 3210:2010 EN ISO 2143:2010 "Estimation of loss of absorptive power of anodic oxidation coatings after sealing." Dye spot test with prior acid treatment."
abrasion resistance		taber test according to ISO 10074
coating hardness		pencil test according to ISO 15 184
uv resistance		artificial weathering in xenon-arc lamp apparatus according ISO 11341
bending		according to EN ISO 485-2
thermal conductivity		> 220W/mK
thermal expansion		22-25 m/(mK)
fire resistance class		A1 - according to the International standard UNI-EN 13501 ("Fire classification of construction products and building elements"). non-flammable - according to British standard BS 476 and to ASTM test E136.
warranty		<b>up to 25 years</b> - this warranty does not apply to any deterioration caused by the action of acidic, alkaline, aggressive liquids, vapours or as a result of accidental damage, misuse, handling and cleaning operations not following the <b>bandoxalpro</b> maintenance procedures 100% recyclable 
defects		no defects visible at an inspection distance of 2 m

## SOME APPLICATIONS

cladding

roofs

walls

sandwich panel

design

welded tubes

automotive

composite panel

honeycomb panel

technical

perforated panels

cassettes

## MAIN ADVANTAGES

Large format

Lightweight

Easy handling

Easy maintenance

Building beautification

Aesthetics

## CERTIFICATIONS
